

Acme Analytics Platform — Internal Product Brief

Draft brief for documentation testing

Platform Summary

Acme Analytics provides a browser-based analytics workspace. Users can create dashboards, connect supported data sources, and share dashboards with team members.

Documented Capabilities

The platform supports dashboard creation and dashboard sharing. CSV export is documented for table data.

Claims Requiring Verification

This document provides no evidence for real-time streaming, AI-generated dashboards, automatic anomaly detection, or unlimited data storage. These capabilities must not be presented as confirmed features without additional source material.

Target Audience

The intended audience is business analysts and operations teams who need to explore business data without building custom applications.
